Old Business

The idea that a Cameron University standard schedule could be developed to facilitate better participation on committees was introduced. It was unresolved which committees should look into the issue.

New Business

Provost McArthur filled the committee in on the impact of the sequester on tuition.

There is a 5% cut to all federal grants.

Military tuition assistance was also cut resulting in CU only getting 2/3rds of tuition and mandatory fees from the Army. The Cameron Foundation picked up the difference this semester, but as 12% of the student body is affected, this could have long term implications for enrollment.

The question of how The Long Range Planning Committee can help Cameron University prepare for Military downsizing was discussed.

Where will CU students come from in the future? Local? Online? Military? Foreign?

How can the LRPC help CU with the new HLC initiatives? For example Gen Ed, Student Retention and Graduation Rates.

Who does CU serve?

The meeting was adjourned at 2:00.

Respectfully submitted, Mike Dunn, substitute secretary.
